

WHAT DOES AN ACTIVIST DO?

When Abuelo got hurt, Sofia wanted to help. She decided that a park in Blue River Creek would help Abuelo and others who needed a safe place to gather.

Activists think about others and try to improve their community, country, or planet. They see a problem and ask, **"HOW CAN I HELP?"**

There is always a way to help. Activists use their talents, hearts, hard work, and time to help others.

Look around your community. Think about ways you can help. They could be physical things like better roads or sidewalks. They could be social things like having more connection between different kinds of people. Ask others what they think about the community and changes they would like to see.

THE PLACE WHERE YOU LIVE: _____

Things you love about your community	Things that could be improved in your community
